Work Experience

Front-end Developer

BaseCamp Data Solution - Lahore

February 2020 to March 2023

I am a highly skilled frontend developer, specializing in creating captivating user interfaces and seamless user experiences. With a deep understanding of HTML, CSS, and JavaScript, I effortlessly bring designs to life, crafting visually stunning and responsive websites. My expertise lies in optimizing performance, ensuring cross-browser compatibility, and implementing the latest industry best practices. With a proven track record of delivering exceptional results, I am passionate about creating impactful digital experiences that engage and delight users.
